

## HOTEL COMPANY TO INCREASE AMOUNT OF CAPITAL STOCK

May Enlarge Plans to Provide Building With Over 500 Rooms—Prominent Men To Be Added to Board.

Application will be made for an amendment to the charter of the Tri-State Hotel Building company, under which the capital may be increased to \$1,000,000, or possibly more than that. The charter under which the company is operating was taken out merely for the preliminary organization, with a nominal capital stock of \$100,000. There has been some discussion since the public sale of stock was opened of enlarging the plans for the building so as to make the hotel one of 500 to 600 rooms, instead of 400, the number provided for under the present building plans. That would merely mean that instead of a 12-story hotel the hotel would have 15 or 16 stories.

The directors also have decided to increase their number to probably 12, instead of seven, as at present. There is a widespread interest in the hotel enterprise in Mississippi and Arkansas and West Tennessee, and several well-known men in that territory have bought stock. Probably one of the new directors will come from Eastern Arkansas, one from North Mississippi and one from West Tennessee outside of Memphis.

The other new directors will be members of the Chamber of Commerce who have been most active in promoting the new hotel and who are living in the stock. H. R. Chears, chairman of the convention section, is mentioned as one of the new directors, and June H. Rudisill, of the board of directors of the chamber, will be asked also to serve on the directorate of the building company.

John T. Walsh, president of the hotel company, has received scores of letters from capitalists and planters in the Memphis territory, inquiring about the sale of stock and several have subscribed for amounts of from \$2,500 upward. It is possible that if the capital stock is increased that several hundred thousand dollars will be set aside for sale outside of Memphis.

### THIN PEOPLE

SHOULD TAKE PHOSPHATE

Nothing Like Plain Bitro-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by the soft curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are often due to starved nerves. Our bodies need more phosphate than contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as Bitro-Phosphate, which is inexpensive and is sold by Walburn-Lyle Drug Co. and most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, Bitro-Phosphate should produce a welcome transformation in the appearance, the increase in weight frequently being astonishing.

Increases in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which make life a wearying existence, thinness, should soon disappear, dull eyes brighten and pale cheeks glow with the bloom of perfect health.

**CAUTION**—While Bitro-Phosphate is unsurpassed for the relief of nervousness, general debility and those taking it who do not desire to put on flesh should take extra care in avoiding fat-producing foods.

## HONOR RELATIVES OF HAYWOOD'S WAR DEAD

BROWNSVILLE, Tenn., Feb. 24. (Sp.)—Services under the direction of the American Legion were held in the Methodist church on Sunday afternoon when the certificates from the French government were presented to the nearest relatives of the soldiers who died in France. Monroe Rooks presided over the meeting and the passing of the certificates from the French government was made an address and all the chairs of the churches led the music.

Only three of Haywood county's boys fell in France. They were William P. Stahl, Cecil Aubrey Clayton, James Ferriter. Two died in camp in the United States.

## Democrats Busy With Caucus Talk On Treaty Action

WASHINGTON, Feb. 24.—Movement among senate Democrats for the holding of a party caucus for consideration of a possible shift in policy on treaty reservations continued today under the surface.

Strong supporters of the administration, while expressing a willingness to enter into a caucus, declared, however, a meeting of party members would reveal little change in sentiment on their side of the senate chamber. The proposed caucus was understood to have strong backing among its advocates, according to current reports, being Senator Underwood of Alabama and other leaders of the group which has been

urging ratification of the treaty on the best possible compromise. Republican leaders, watching the reported development in the Democratic ranks, reiterated their assertion that Democrats had evidenced a willingness to accept the Republican reservation program. Administration leaders disputed this total, which added to the known Republican strength, would bring the supporters of the League reservations to within a dozen of the two-thirds vote required.

The outcome of the caucus movement was expected to be brought into the open as soon as Senator Hitchcock, of Nebraska, acting Democratic leader, returned to the capital today after spending the week-end out of the city.

Shares of the Capital Stock of the Reelfoot-Ranger Oil Co., at \$10.00 per share, fully paid, and non-assessable. (Par value \$10.00.)

Name Address

**ONE HUNDRED AND FIFTY** Memphis business men recently sat in impartial judgment and heard reports from geologists, experienced drillers and successful oil men (heavily investing their own money in Reelfoot-Ranger) who stated their positive conviction that oil will be found in abundance at Reelfoot Lake.

A great cheer went up when it was stated that oil at Reelfoot would bring money to this city in the same proportion as the little city of Wichita Falls, Texas, whose banks carry deposits aggregating \$40,000,000.00. **THIS WOULD MEAN \$250,000,000.00 ON DEPOSIT IN MEMPHIS BANKS!**

Success with the Reelfoot-Ranger Oil Company does not depend by any means upon striking oil at Reelfoot. It is not necessary for the company to strike oil at any one particular field to succeed.

It already has a 250-barrel producing well at Burkburnett, another well on the oil sand in the same block, ten acres in Burkburnett within a few feet of production, forty acres in Archer County near development, twenty acres in Tillman County, Okla., across the river from a well which came in for 4,000, one hundred and sixty acres in Harmon County, Okla., on a direct line between Burkburnett and Amarillo fields, ten acres in Desdemona within sight of a 3,000-barrel well, ten acres in Sipes Springs lying between the 100-barrel Jackson and the Goss No. 1 gasser, ten acres in Iowa Park, Texas, where 100 wells are being drilled, sixty acres in Childress County, where fifteen tests are being made, two thousand acres in the Amarillo field, between the Seven States Oil Co.'s 10,000 acres and the big gasser field on the north, containing the largest gas well in the world, three-fourths interest 2,000 acres near the Homer and Bull Bayou, La., fields, where a gas well adjoining has been burning for many years. (Our president, Mr. W. H. Newberry, recently witnessed the "spudding-in" of our new well at this place), and **FORTY THOUSAND ACRES AT REELFOOT LAKE, Tennessee and Kentucky.**

Oil at Reelfoot will bring untold wealth and prosperity to Memphis and West Tennessee. One well has already gone down to a depth of one hundred feet and the rig for another is being placed in position.

Oil is the second industry of America, and is the most inviting field of investment today. Reelfoot-Ranger has all the elements found in those companies which have succeeded and **BROUGHT LARGE RETURNS TO THE STOCKHOLDERS.**

Following the basis of organization the company will engage in all branches of the oil industry, extending its operations as opportunity is presented and capital provided.

By resolution of the board of directors, \$300,000.00 of the company's capital stock is offered at par. Developments are expected to come rapidly and this portion of the stock is not likely to remain on the market long.

Discriminating investors, appreciating the personnel of the management, the great variety of valuable holdings, the plans for the future and the possibilities of the company becoming worth millions of dollars through the developments at Reelfoot Lake, will quickly subscribe the amount offered at par.

Contemplate the fortunes that will be made and the tremendous developments that will follow. **NOW** is your opportunity to share in big profits.
